**Subject:** RE: quick question

Rupert,

The treatment system at the [Ex. 6 - Personal Privacy] is designed to remove methane, to remove filterable material, and to disinfect the water via an ozonator. I am not aware of the [Ex. 6 - Personal Privacy] having a water softener.

Thanks,  
John

John quick question. What is the water treatment system at the [Ex. 6 - Personal Privacy] for? do they have a softener?
